Si Thu Win

Software Developer

Throughout my **5-year-plus career as a Software Developer** , I have focused on developing scalable and well-documented code. I enjoy working collaboratively but can also run with projects independently. Motivated to advance and expand my skill set through targeted mentorship and challenging projects.

EXPERIENCE

FrontEnd Developer

J&A Technologies / Dubai / April, 2024 - Present

- Improved software efficiency by troubleshooting and resolving coding issues.
- Saved time and resources by identifying and fixing bugs before product deployment.
- Updated old code bases to modern development standards, improving functionality.
- Collaborated with cross-functional teams to deliver high-quality products on tight deadlines.
- Enhanced user experience through designing and implementing user-friendly interfaces.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Inspected equipment, assessed functionality, and optimized controls.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, Angular, etc...
